

SUMMARY: Information Technology professional... Over twenty years... Wide-ranging and deep experience, a solid generalist... UNIX servers; PCs; MVS, VSE, and VM mainframes; and data communications networks... Intelligent, creative, flexible, and ethical... Customer-oriented, keeps the big picture in mind... Delivers excellence

Relevant Experience

Administration: MVS, VSE, and VM mainframes...UNIX (especially Linux) servers and workstations... Microsoft PCs...TCP/IP, SNA, and ASYNC networks... Installed equipment, machines, wiring, operating systems, and programs... Repaired or replaced equipment and system software to best serve user needs... Determined what caused operating errors and what to do about them... Interfaced with hardware and software vendors on behalf of employer/clients

Development: Applications programs, device drivers, system level routines, commercial program products (privileged and unprivileged)... Assembler, MASM, C, COBOL, shell scripts, Perl, and many other languages... MVS, VSE, and VM mainframes, UNIX servers and workstations, Microsoft PCs... Created external and internal designs by analyzing needs and product requirements... Packaged (aka build and integration) program products using SMP/E, tar/gzip, and InstallShield 3 and 5

Quality Assurance: Evaluated quality by conducting tests and inspections of products, services, and processes... Improved throughput or corrected inadequacies by identifying measures and indicators of system/program performance and subsequent analysis... Streamlined testing processes by developing automata to drive test case execution and evaluation

Support/Consulting: Effectively conveyed information and fostered cooperation when conversing with and actively listening to clients, customers, peers, subordinates, and superiors... Successfully transferred knowledge via presentations, tutorials, formal classes, seminars, users guides, and large scale RFP responses... Skilled in BookMaster, nroff, Word, Word Perfect, PowerPoint, Project Workbench, others... Maintained awareness of trends and emerging technologies in the IT industry to stay current and to grasp their implications for client businesses

Professional Experience

Realistic Computing, Inc.:	Member of the Technical Staff:	Baltimore, MD
City of Baltimore	Systems Programmer (VM/ESA, VSE/ESA)	Baltimore, MD
America Online	Senior Systems Analyst (HP/UX C and Perl)	Dulles, VA
Keane, Inc./AGS Information Services:	Senior Consultant:	Rockville, MD
Verizon	Mainframe Developer (MVS COBOL, IMS)	Columbia, MD
Group 1 Software	Platform Specialist/UNIX Administrator	Lanham, MD
IBM FSD	OCD Developer (OS/2 device driver)	Gaithersburg, MD
National Geographic Society	Networking Architecture Consultant	Washington, DC
AT&T/IBM FSD	Member of the RFP Response Team	Mannassas, VA
NASDAQ Stock Market	Networking RFI/RFP Support Specialist	Rockville, MD
National Security Agency	X Windows Developer (HP 9000 HP/UX C)	Columbia, MD
IBM ASD	Build and Integration Specialist (MVS)	Bethesda, MD
ARINC Research	Principal Analyst (UNIX, C, & TCP/IP Developer)	Annapolis, MD
Computer Associates, International	Senior Product Engineer (FastDASD)	Herndon, VA
Network Solutions	Lead Software Engineer (DDN/MVS)	Vienna, VA
Computer Sciences:	Computer Scientist:	Beltsville, MD
NASA Goddard Space Flight Center	Senior VM/Networking Systems Programmer	Greenbelt, MD
COMNET	Senior MVS Systems Programmer/Developer	Washington, DC
Johnson Systems	Software Specialist	McLean, VA
Fairchild Industries	Senior VM, VS1, and MVT Systems Programmer	Germantown, MD
General Electric Information Services	Systems Analyst (MVS Maintenance Specialist)	Rockville, MD
COMNET	Systems Programmer/Developer (MVT, ALPHA)	Washington, DC
Binary Associates:	Partner:	Silver Spring, MD
Sun Life Insurance	Admin/Developer (HP 3000 MPE/II, APL SPL)	Baltimore, MD
